In conveying^x their approval to start
an illustrated magazine for boys and
girls in Kannada, Govt. left it for
the Edu. Committee to consider whether
private enterprise was forthcoming.

undertake the work with reasonable aid from Govt. It is now seen that none of the applicants offered terms fit to be accepted. The Committee therefore think that the best course is to entrust the work to the Edu. Department under the direction of the J. G. of Edu.

2. The J. G. undertakes the publication on condition that an annual grant of Rs 3,000 is given to him with permission to utilise the sale proceeds, the matter being treated as purely private during the first year. How it should be treated from the second and succeeding years has not been stated.

3. Besides the grant of Rs 3,000 the Govt. are recommended to encourage the publication by means of purchasing about 2,500 copies of the magazine which is equivalent to a sum of Rs 2,500/-, the annual ~~rate~~ subscription being calculated at Rs 1, excluding postage

29/4 5 The original idea was to start such a magazine by private agency. It is now suggested that the work should be entrusted to the Govt. Depart. To whom the I. G. of Ed. intends to entrust ~~the~~ the work is not known. If 3000 Rs. are given as a Govt. grant, how many copies of the magazine will be sent for free distribution to Ed. institutions is not stated.

a sum of Rs 3000 per annum for two years and give it as an initial grant for expenditure, I shall be able to arrange for the publication of the magazine and the work will be entrusted to the teachers of the Training College at Mysore, who are well able to conduct a magazine of this kind. At the end of the first year, if the magazine becomes self-supporting, no grant will be asked for from Govt. I doubt however whether it can be made so at the end of the first year. Hence the guarantee for two years asked for. If Govt is not prepared to give any grant, the matter may I think, be dropped.

I am inclined to agree with the views of the H. Secretary. If Govt. considers economy essential in the present position of affairs the subject may be dropped for the present. If however a ^{sum} of Rs 3000/- can be spared, the proposal may be tried for two years.

The Education Committee might consider the feasibility of entrusting the work to a private agency, Government undertaking to give a subsidy at a specified rate for every copy sold. This method appears to be better than to run ^{the journal} as a Government publication.

SIR.

With reference to Government Order No. 2345-6/Edn. 64-14-4 dated the 6th January 1915 approving of the draft advertisement regarding the publication of a Children's Magazine in Kannada and calling for a scheme and detailed proposals in the matter of a grant of Rs. 3,000/- as recommended by the Committee for the purpose, I am directed to state that the advertisement was published in three successive issues of the Mysore Gazette beginning with the No. dated the 18th February 1915 and also in the Madras Mail dated the 16th March 1915 and 17th March 1915.

The applications received in response were examined at the meeting of the Committee held on 20th March 1915 and it was found that none of the applicants offered terms fit to be accepted. After consideration of various suggestions made during the meeting, it was thought that the best course was to entrust the work to the Education Department under the direction of the Inspector-General of Education.

-2-

I am to submit herewith therefore for orders of - - -
Government a copy of the resolution passed on the subject as
well as a copy of the note by the Inspector-General of - - -
Education.

(10) Publication of Children's Magazine in Kannada -
=====

The applications received in response to the advertisement published in the Mysore Gazette were examined and the terms specified by none of them were found satisfactory. The - - - Secretary to the Committee suggested that the matter could be better entrusted to the Inspector-General of Education as he had the advantage of having the Training College and men who would write to suit the tastes of the children. The Inspector-General of Education consented to this on condition that an annual grant of Rs.3,000/- was ~~to be~~ given to him with permission to utilize the sale proceeds, the matter being treated as purely private during the first year.

It was thought therefore that the best course seemed to be to entrust the work to the Education Department under the direction of the Inspector-General of Education.

Note on Children's Magazine in Kannada.
=====

A Children's Magazine is, no doubt, a great necessity, but it can be better conducted through private enterprise than otherwise. Though it may be admitted that in the present condition of our - - - country, Government aid is needed to supply the necessary impulse and to sustain the enterprise during the first few years there is no - - - reason why a cheap but well conducted magazine of the kind should not become a thorough success and bring in great profit to the - - - conductors after a few years.

In order to ensure the success of this enterprise and enable it to become self-supporting as early as possible, it is very essential to see that the annual subscription should not be more than a - - - rupee (excluding postage), so as to be within the reach of men with limited means. It is also necessary that the magazine should be got up in an attractive style both in regard to manner and matter so that its readers - young as well as old - may be eagerly looking forward to the successive issues of the Journal.

The Government cannot undertake to supply the 'matter' for the magazine, but they may permit teachers and others in Government - - - service to contribute articles to it. Seeing that such magazines for the young as Boys' Own Paper, Girls' Own Paper, Chums, Little Folks, Little Paper, Leisure Hours and Children's Magazine and - - - Children's Encyclopaedia can supply enough materials for the - - - journal in Kannada, I am sure that a regular supply of articles would be forthcoming, provided that approved contributions are - - - decently paid for according to a well-regulated scale. The Government may encourage the publication by means of purchasing about - - - 2500 copies of the magazine for distribution among the several schools of the State.

Inspector-General of Education.
